Experience

Eimple Labs

React Developer Intern

Remote

June 2024–July 2025

- Developed responsive admin dashboard using React.js and Material UI.
- Built reusable UI components and integrated REST APIs.
- Optimized application performance through debugging.

Eimple Labs

.NET Developer Intern

Remote

August 2025–Present

- Developed backend modules using ASP.NET Core and SQL Server.
- Implemented Email Notification and OTP Authentication.
- Integrated Google Analytics and improved backend performance.

Projects

Live Project

Jankoti Platform

- Built and deployed a full-stack ASP.NET Core web application.
- Developed authentication system, backend APIs, and admin dashboard.
- Integrated SQL Server database and production deployment.
- Live Website: www.jankoti.com

Personal Portfolio Website

- Designed and developed a responsive portfolio using React.js.
- Showcases projects, internships, technical skills, and achievements.
- Optimized for SEO and mobile responsiveness.

Brain-Computer Interface Progress for Smart Wheelchair Applications

- Conducted research on Brain-Computer Interface (BCI) technology.
- Studied EEG-based wheelchair control systems and accessibility solutions.
- Reviewed recent research papers and practical implementations.

Leadership & Activities

- Organizing Member, Design Hackathon 2024, YBN University.
- Active Member, Coding Club, YBN University.
- Participated in Hackathons conducted by Arka Jain University.
